

Sauna Wellness PRO 10 Installation

Please use this guide along with Owner's Manual pgs. 6-9

- A. Place base where the Sauna will be permanently located. Allow 6 inches clearance from wall for installation.**
- B. Put up back wall & manually hold in place.**
- C. 1. Put up left side panel. Align with back panel and slide & click into place.**
2. Put up right side panel. Align with back panel and slide & click into place.
3. Put up the front seat/heater panel. Hold in place.
4. Slide the seat panel into place.
- D. Put Front panel on. Ensure alignment with left and right side panel to slide and click into place.**
- E. Align cabin top on Sauna. Bring electrical connection from the left panel through the hole on the the cabin top. Secure the top into place & connect all electrical on top.**
